

The image features three white plates of gourmet salmon dishes arranged on a dark grey background. The top plate shows a rectangular piece of salmon with a golden-brown crust, topped with sliced red onions, yellow lemon segments, and fresh green herbs. The bottom-left plate contains a vibrant red salmon tartare, garnished with white diced onions and fresh green herbs. The bottom-right plate features two salmon steaks, each topped with a slice of avocado and a sprig of fresh dill. Small clusters of purple and yellow flowers are scattered around the plates. The word 'bonná' is written in a bold, black, sans-serif font in the upper right quadrant, and 'PREMIUM '20' is written in a similar font in the bottom right corner.

bonná

PREMIUM '20

Bonna IS HERE FOR US!

As Bonna, we are dedicated to meeting the needs of the present without jeopardizing future generations.

This dedication is one of our corporate principles, placing ethical standards at the very center of our corporate vision since the foundation of our company.

For us, integrity is a crucial quality. Therefore, throughout the production cycle, we consider the problems faced by the world and implement policies for responsible production. One of our

primary objectives is to sustain eco-optimized production. In our factory equipped with cutting-edge technologies, we aim to maximize natural gas and electricity consumption savings in all units.

Our daily operations are carried out in line with circular supply chain management. The water initially used in the production cycle is recycled to be used later. Furthermore, only recycled paper is used for the packing of Bonna products.

Lifetime-ECO
FRIENDLY

Eco-Optimized Production

- ✓ **Reduction in Electricity Consumption Using New Generation Press Machines**
- ✓ **Reduction in Natural Gas Usage Using Advanced Kiln**

Sustainable Product Quality

Of the total water consumed in a year, 80% is the water recycled from earlier production stages.

Reduced Carbon Footprint

**LIFETIME
EDGE CHIP
WARRANTY**

The entire Bonna product range identified with the **6** challenge the toughest standards and can be used for years by fulfilling the Horeca industry requirements.

TRANSLUCENCY

Detailed R&D process gave the translucency and elegant ivory whiteness to all-porcelain products. Our special formula and ingredients add a unique glossiness to our products.

**STACKABLE
DESIGN**

The stackable design is an indispensable property, especially in the Horeca sector. Our stackable design offers the best and the most practical solution even in the tightest storage areas.

**GLAZE
DAMAGE
RESISTANCE**

Scratches are a common problem in the food and catering sector. With our extensive R&D efforts, our state-of-art glazing technique offers high-level scratch resistance in all our products.

**MICRO
WAVE
& OVEN
SAFE**

Thanks to our durable raw materials and extensive R&D efforts, our products can be safely used in microwave and oven even for the high-temperature requirements of restaurants.

**DISH
WASHER
SAFE**

Horeca sector requires fast service-to-cleaning cycles. Our high-resistance glazing process protects all Bonna products in highly corrosive industrial dishwasher environment to meet the fast cycle needs.

**THERMAL
SHOCK
RESISTANCE**

Our products are durable against sudden temperature changes and under extreme temperature conditions in the kitchen with hard glaze surface and premium raw materials.

**GENUINE
PARTNER**

We think of all our customers as our partners and share their passion in the sector as our own passion. Our products are specifically designed to present high value to our customers in their service delivery.

KM 681731
BS 4034 Vitrified Hotelware

**Excellent Product Design
Tabletop Category WINNER**

The VAGO collection was awarded the
**Excellent Product Design Award in the
Table Top Category 2020 German Design Award.**

HYGGEE

We have blended pure dining experience with sustainable design understanding and high technology.

Here is the new HYGGEE series.

We targeted functionality in our designs, where we adopt the universal design approach. We wanted to avoid the unnecessary details in the design of the product and use it only as much as we need. We combined the fluent and simple lines in the nature for the best presentation experience. We focused on the integrity of the forms that could appeal to different food presentations that complement each other.

The design is universal. At this point, Hygge aims to offer chefs the opportunity to reveal their unlimited creativity.

Porcelain Care

- You can safely use decorated, hand-painted, or white porcelain products in ovens, microwaves, and freezers.
- It is not advised to move porcelain from a hot oven to a freezer or vice versa because porcelain is a hard but delicate substance that can break with sudden changes in temperature.
- You should not put porcelain on open fire unless it is designed especially for that purpose. (Example: Eared dish)
- In the case of black marks on the porcelain surface caused by metal cutlery, an appropriate steel cleaner or vinegar can be used to remove the marks.
- Caution is advised not to rub metal hardware with Porcelain while washing by hand or in a dishwasher.
- You should not use metal washing wire and tough scrub sponges when washing Porcelain surfaces.

Glass Care

- Glass material is safe to use in food storage and for hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher safe including industrial dishwashers. It is advised to avoid harsh chemicals to clean the glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damages on the product.
- Over stacking is not recommended as glass is a fragile material.
- It is not safe to use the glass products in oven and microwave. Additionally, direct flame, excessive heat or sudden temperature changes should be avoided for product safety.
- Always wash all the glass product before using for the first time.

Wood Care

- Before using for the first time, scrub with saline water, wipe off in time, and leave to dry. For daily maintenance, it can be wiped with olive oil.
- The surface of the wooden board can be damaged when knocked with harder materials.
- Solid wood boards have natural surface textures; therefore, they may differ in their appearances.
- Avoid soaking the wooden board for too long. To prevent bacteria growth, wash and dry it in time.
- Vegetables, meat, fruit, and other food materials can be easily processed on the wooden board. However, avoid too much chopping of hard food materials such as bones to prevent the wooden board from being damaged.
- It is not advised to leave wooden products in damp places for a long time.
- Avoid exposing wood materials to the sun for a long time. Increased loss of moisture could lead to wood cracking.
- It is recommended to use a soft cloth when cleaning. Never use metal wire for cleaning.
- You can wipe the surface with olive oil to extend the useful life of wood products and remove knife traces.

Melamine Care

- Our melamine products can be safely washed in industrial dishwashers up to 100°C.
- You can use standard dishwasher detergents.
- Avoid exposing melamine products to highly acidic liquids.
- It is advised not to expose melamine products to temperatures out of the range of -20°C and 110°C.
- Impact resistance is 7,8 kpcm/cm².
- You should not use melamine products in microwave ovens.
- Avoid direct contact with an open flame.
