history

Good design starts with art and art is reflection of the soul on the design. We are adding little nuances of art and beauty to designs, the nature of which is about purity. We are deriving inspiration from the past, and projecting it into the future. Directing strong emphasis of the modern approach into a brand new dimension, we add more value to the design.

While adding a new touch to the well-known and timeless lines, we are creating highly energetic spaces deriving inspiration from today for the future. We are combining simplicity and aesthetics in our bathroom sets in a way to evoke luxurious, smart and modern feelings.

This series takes its name from the word “Bella” which means beauty in Italy

The set is comprised of sinks and toilets in “C” shape. Non-geometric, soft contours of the set are the product of an elegant and minimal design approach. The set which has a fluid tank offers an excellent bathroom solution without trading off the practical use. The set rebels against an exaggerated beauty. The set is ideal for narrow spaces and has various size options.

mona

Convenient for home use and commercial space, Mona Set is one the most preferred products.

blue

“Thin profile on the top prevents water to go out and protects cabinet.”

IF Design Award | Hannover, GERMANY
Good Design | Chicago, USA
Good Design Award | Istanbul, TURKEY

Washbasin's design is inspired by the color "blue". Calm, clear and elegant like water.

Blue washbasin reflects the elegance of this unique color to the bathrooms with the slimmest edges.

Sophisticated slim design creates a luxurious and calm atmosphere. Thanks to carefully thought-out details, the washbasin combines aesthetic with function. Thin profile on the top prevents water to go out and protects cabinet. Soft bowl design emphasizes the calming effect of the water on Blue washbasins.

Since it has a very slim and elegant frame form, it provides a very smart look to the bathrooms. The geometric contours give an urban and modern feel to the set. roma

The collection blends past with the new millennium's futuristic world. The design resembling past and enriched by smooth transitions also takes you to an incredible journey. Taking its name from the city of Rome, interpreted in a modern style and with an aesthetics pertaining to Rome, the front edge of the washbasin is comprised of a bow rather than a flat line.

The collection has a 65, 85 and 95 cm range of washbasins endowed with cabinets. The set carries a certain value from past to our modern day. The set has tanks and cabinets of varying sizes.
