ARMİS

**a brand leading
Turkey's production
power,**

Armis, a brand leading the production power of Turkey, was founded in 2017 in Yalova with a 15,000,000 euro investment and 100% Turkish capital. Since 2018, it has continued its passionate work with over 600 sales points across Turkey in its factory located in Kayseri, in a total area of 55,000 m2, with 35,000 m2 of closed production space.

With an energetic vision and strong infrastructure, Armis produces world-class products for ergonomic, comfortable, and healthy sleep. Armis Mattress not only focuses on mattress production but also offers a wide range of products such as home textiles and furniture.

Armis is a brand focused on quality and durable production, with a team of experts. It prioritizes investments in technological innovations, fast delivery, and effective inventory management. With its wide product range and innovative production technologies, Armis Mattress offers a healthy and comfortable sleep experience catering to various sleep preferences.

In its factory, production is carried out with the latest technology and a special design team. Thanks to its R&D activities, it ensures innovative developments and high-quality standards. Rising as a star in the mattress industry, Armis' goal is to match the right mattress and products with the right people.

The mass production processes increase efficiency while being supported by a continuous quality control mechanism. The wide distribution network of Armis mattresses is one of the cornerstones of the brand's accessibility. It offers professional consulting and support services before and after sales. This comprehensive approach aims to provide customers with not just a mattress but a complete service experience.

Moisturize Your Skin, Enjoy the Essence of Youth!

All functions that allow our skin to take shape and maintain its protection require moisture.

Maintaining the necessary moisture level for our skin is crucial.

Feel refreshed every morning when you wake up with a Bohemian mattress!

The Bohemian mattress not only offers excellent support and comfort but also elevates your sleep experience with its special Pocket Spring System. This system follows the natural contours of your body, providing equal support to every point and delivering maximum comfort. The extra plush topper increases softness and comfort, while the mattress's hyaluronic fabric moisturizes your skin and enhances its elasticity. Designed for both durability and comfort, the Bohemian mattress ensures a restful and relaxing sleep experience every night.

Hyaluronic

Hyaluronic is an amino acid naturally found in our skin that provides hydration, firmness, and elasticity. This molecule can hold up to 1,000 times its weight in water, delivering deep moisture to the skin and promoting new tissue growth by supporting cell regeneration.

linen Organic

Natural Flexibility, Durability, and Restful Sleep.

Why Linen Organic?

Natural Comfort and Breathability

The natural texture of linen fabric helps regulate body temperature, ensuring a cool and refreshing sleep even on hot summer nights. Its breathable surface promotes maximum air circulation during sleep, allowing you to enjoy a fresh and comfortable rest every night.

Anatomical Support and Even Distribution

The Pocket Spring Technology provides equal weight distribution across the mattress, perfectly following the natural curve of your body. This feature offers the anatomical support your body needs during sleep, ensuring a comfortable and restorative rest.

Durability and Longevity

Linen Organic maintains its comfort over time with its durable structure and flexibility. The mattress ensures you wake up feeling refreshed every morning, and thanks to its long-lasting build, it provides years of comfortable sleep.

Sleep with Magnetic Energy!

Cleanse yourself from the negative electricity we accumulate in our daily lives and start the new day with a positive, energy-filled, and refreshed feeling by experiencing the magnetic field effect of Tesla technology. This technology, applied to the fabric of the mattress, accelerates local blood circulation, stimulates the immune system, and contributes to the body's rejuvenation.

Enjoy a Comfortable and Uninterrupted Night with 1000-Count.

The 1000-count pocket spring with high spring density adapts to the body's curves, providing a delicate and orthopedic sleep experience.

Base Fabric Features

Fire-Resistant Fabric

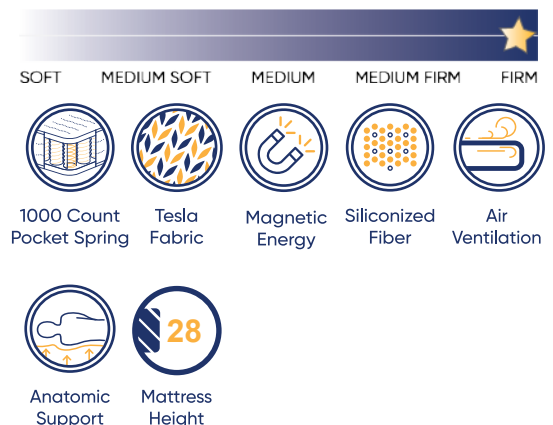

The special base used in our mattress set offers a safe sleeping experience thanks to its fire-resistant fabric. Additionally, its pet-friendly design makes it an excellent choice for pet owners. The fabric's structure prevents damage from your furry friends and ensures long-lasting use. Moreover, with its easy-to-clean feature, you can maintain your daily hygiene effortlessly. Combining both aesthetic and functional qualities, this base is an excellent choice in every way.

Athlete's Mattress

4 SEASONS

Thanks to its heat-generating feature, it regulates body temperature and maintains a balanced warmth, ensuring a comfortable sleep throughout the night.

With its deodorizing effect, it prevents unpleasant odors and keeps the sleeping area fresh. The fabric's quick-drying feature allows moisture to evaporate rapidly, creating a warm and dry sleep environment.

Why Four Season?

Our mattress, specially designed for athletes, balances body temperature throughout the night to provide a comfortable sleep. With its deodorizing effect, it prevents unpleasant odors and creates a dry, fresh sleeping environment thanks to the fabric that quickly evaporates moisture. By evenly distributing body weight, it gently supports the shoulders, back, and lower back, helping to prevent back pain. It also reduces lactic acid buildup in muscles, easing physical fatigue and ensuring complete rejuvenation during sleep.

Clouds Mattress

Clouds Base+Headboard

Visco Lumbar Support Layer

It molds to the shape of the body and aims to protect spinal health at the highest level. Supported by springs that adapt to the pressure applied by the user's weight, visco mattresses provide comfort to the sleeper.

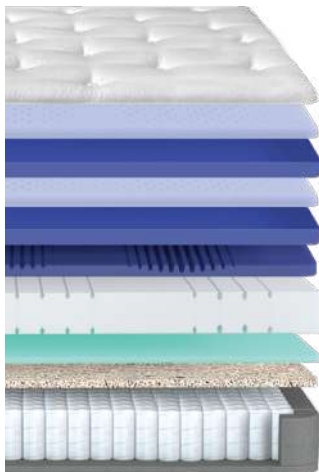

The Warmth of Plush Fabric

When you lie down on the bed, the soft texture of the plush fabric envelops you, creating a warm, comforting embrace. Clouds is not just a mattress, but a center of comfort and elegance.

A Sleep Experience on the Clouds

Designed for those who want to experience a sleep as if on clouds while relieving the fatigue of the day, Clouds ensures equal distribution of your body weight across the mattress thanks to its Pocket Spring Technology. Since the springs in the pocket move independently from each other, movement on one side of the mattress is minimally transferred to the other side, making it ideal for couples. The Pocket Spring Technology also allows air circulation between the springs, helping the mattress stay cool. When you lie down, the soft texture of the plush fabric creates a warm, comforting embrace.

AMBER SET COMPONENTS

Amber Mattress

Amber Base

Amber Headboard

Meditation Fabric Technology

Thanks to the applied technology, it minimizes the static electricity in the body during sleep. By reducing the stress caused by this electricity, it provides a more comfortable sleep experience

Why do we need to reduce static electricity?

- An increase in the electricity in our body can lead to muscle fatigue, muscle pain, cramps, and mental exhaustion.
- With Meditation technology, it is possible to relax both physically and mentally during your sleep.

Natural Elegance, Superior Comfort

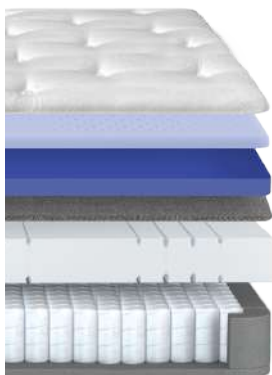

The Amber Mattress is inspired by one of nature's most precious stones, amber. This mattress is equipped with special technologies designed to help alleviate common issues such as headaches, stress, and sleep problems during sleep.

The fabric of the mattress is treated with jojoba oil, rich in vitamin E, and thanks to this special fabric technology, it creates an antioxidant effect. As a result, you experience a relaxed and calm atmosphere in the bed. With Meditation Fabric Technology, the mattress minimizes static electricity in the body, reducing stress during sleep and offering a more comfortable sleep experience.

Zippered Pad

Zippered pads can be easily attached and removed from the mattress. The zipper system allows the pad to be quickly removed and reattached, greatly simplifying cleaning and maintenance tasks.

Bases

Stylish and Functional

Storage Helpers for Your Bedroom

When choosing a base, factors like sturdiness and durability should not be overlooked. The material quality, durability, and craftsmanship of this piece of furniture, where you will store your valuable items, will affect the satisfaction you get from using the base in the long term. Additionally, these models should be made of materials that are easy to clean and have a strong structure to ensure they can offer long-lasting use.

The leg heights are suitable for robot vacuum usage.

1

- **High-Quality and Stylish Legs:** Decorative, high-quality legs offered in various heights and aesthetic options, suitable for different models.

2

- **Corrosion-resistant coating:** Coated with electrostatic powder paint, offering high resistance to corrosion and a long-lasting construction.
- **Durable steel structure:** Made from steel box profile, with a solid and reliable body and covers.

3

- **Easy opening mechanism:** High-performance shock absorbers that ensure smooth opening of the base.
- **Spacious and practical storage compartment:** A large, easy-to-use, and convenient storage compartment.

4

- **Quiet and long-lasting performance:** Silent operation and extended durability thanks to the stoppers.
- **Anti-slip handles:** Stylish and durable decorative handles that prevent mattress movement.

5

- **Safety lock:** A sturdy safety lock for extra security.
- **Air capsules for ventilation:** Capsules with an effective air circulation system that prevents moisture and humidity.

How Should the Care of the Base Be?

Base maintenance and cleaning are crucial not only for extending the product's lifespan but also for ensuring a hygienic environment in your room. Armis bases, known for their durability, also offer practical solutions for easy cleaning. To maintain the hygiene of your home, regularly vacuuming to deeply remove dust is an effective method. In case of spills or stains, using natural cleaners without harmful chemicals that won't damage fabric or leather surfaces helps prolong the life of the base. Choosing the right cleaning equipment ensures long-term durability by preserving the structural integrity of the surface.

Allowing air circulation around the base helps prevent bad odors and moisture buildup. Additionally, using mattress protectors can simplify the cleaning process and further extend the lifespan of your base. Regularly checking under the bed is also important, as this area can accumulate dust and dirt. Armis provides maintenance guides and instructions to help achieve optimal results. By following these tips, you can maintain your product in its original condition and create a healthy sleep environment. With Armis' high-quality and functional base models, you can create a hygienic space in your bedroom.

Headboards

Customize Your Sleep Space

Start Your Day Full of Energy

Headboard choices, which play an important role in the aesthetics of bedrooms, have a significant impact on the overall atmosphere of the room. The various bed headboard models we offer at Armis are designed to not only enhance your comfort but also elevate the elegance of your room.

Six Factors of Sleep

Comfort: Choose ergonomic pillows to make your sleep comfortable. Provide support for your head and neck to ensure a restful sleep experience. Opt for bedding sets suitable for seasonal use, which absorb moisture and retain warmth.

Lighting: Control the lighting in your bedroom. Use roller blinds to block external light. For the night, choose warm-toned (red or amber) lights to create a relaxing sleep environment.

Bedding: The material and temperature of your bedding sets greatly affect your sleep quality. Choose bedding made from the right materials to avoid issues like overheating or feeling too cold.

Sound Control: Use sound-absorbing panels to reduce noise for a peaceful sleep. Soundproof curtains can be particularly effective at blocking external noise. For noise inside the house, using carpets can help reduce sound.

Air Quality: Use air purifiers for cleaner air. These devices filter allergens, odors, and pollutants, improving the air quality in your home. You can choose between wall-mounted or floor-standing models.

Organization: Keep your bedroom tidy to improve your sleep quality. Sleeping in a cluttered room can be challenging, so use the space under your bed for storage and organize your belongings.

The Secret to Waking Up Feeling Refreshed in Bed!

Side Sleeping
High Pillow

Back Sleeping
Medium Pillow

Sleeping on Your Stomach
Low Pillow

The correct sleep position is one of the most important factors in starting your day with energy. If you experience pain in your lower back, neck, or shoulders when you wake up, it may be due to incorrect sleeping posture. So, what is the ideal sleeping position?

Sleep Positions

1. Sleeping on Your Back

When considering the spine as a whole, it is important for the lower back and neck to remain in a neutral position for healthy sleep. The most critical factor in this position is the choice of mattress. Latex or custom-made mattresses are important for ensuring the spine is comfortable. While sleeping on your back is beneficial for spine health, it may not be ideal for people with respiratory diseases.

2. Sleeping on Your Stomach

Sleeping on your stomach disrupts the natural position of the spine and puts pressure on the abdominal area, leading to potential pain. Turning your head to the side in this position can cause neck pain. Placing your arms under the pillow may also result in shoulder compression. While short periods of stomach sleeping may not be harmful, long-term sleep in this position can create problems.

3. Sleeping on Your Side

Sleeping on your side has both advantages and disadvantages. In this position, the spine maintains its normal alignment, which can alleviate back pain. It is also the best position for people who snore. Sleeping on the left side can help with digestive issues like acid reflux. However, it is important to note that prolonged side sleeping can cause skin wrinkles.

Suggestions

Regardless of your sleep position, it is important to choose a mattress and pillow that support your spine. If you sleep on your side, adding a pillow under your lower back can provide better support. Also, try to change your position during sleep to avoid staying in one position for too long.

In conclusion, each individual's body structure is different, so finding the most suitable sleep position is crucial. With small adjustments, you can achieve a more restful sleep experience.

Visco Dream Neck Pillow

It provides a comfortable sleep as it fits perfectly to the head and neck area. It is especially recommended for people experiencing neck straightening and herniated discs.

40x60cm

50x70cm

Visco Air Fresh Pillow

Do you want to have a comfortable sleep? With our Visco Air Fresh pillow, breathe comfortably throughout the night. The Visco Air Fresh pillow, specially designed for you, features 857 air channels that prevent sweating and provide airflow. The large-pored air channels in the center of the pillow are designed to support your head, while the smaller air channels surrounding these holes provide excellent neck support.

Visco Comfort Shoulder Pillow

Our Visco Comfort Shoulder Support Pillow, designed for side sleepers, fills the shoulder gap and provides excellent neck support during side sleeping.

50x70cm

Visco Relax Jel Pillow

The Cooling Gel Layer in the center of our pillow absorbs the body's heat when in contact, helping to lower your body temperature. The gels are liquid-proof, do not require washing, and are wipeable. They are highly effective against perspiration. The pillow maintains the natural curve of your spine, providing a comfortable sleep experience.

50x70cm

Visco Lux Collagen Pillow

Our Visco Lux Collagen Pillow offers maximum comfort with its silky touch in the neck area. Thanks to the collagen and elastin fibers in its composition, it prevents skin dryness and thinning. It features a mix of visco foam and soft foam granules. While maintaining the skin's moisture balance, it also provides a silky and smooth softness. The zippered outer cover is easily washable when needed.

50x70cm

Italian Pillow

50x70cm

Its dense filling and knitted fabric ensure uninterrupted sleep.

With its breathable structure, it is suitable for use throughout all four seasons.

Flora Pillow

Single 155x215 cm | Double 195x215 cm

The outer fabric, made of 100% Microfiber, is very soft. The silicone fiber inside repels bacteria.

It maintains its volume for many years and provides a healthy sleep.

With its soft texture, the Flora Quilt is a warm and comfortable product that creates a cozy sleep environment and ensures uninterrupted sleep.

4 Seasons Quilt

Single 155x215 cm | Double 195x215 cm

The Four-Season duvet is designed with light and breathable materials, keeping you cool in summer and warm in winter. Its adjustable structure according to the surrounding temperature provides ideal comfort in every season. With these features, four-season duvets offer a practical and functional sleep experience.

Smart Pillow and Quilt

50x70 cm
Single 155x215 cm | Double 195x215 cm

With its soft texture, the Smart Pillow & Blanket is a great choice for a comfortable and uninterrupted sleep.

Aloe Vera Pillow and Quilt

50x70 cm
Single 155x215 cm | Double 195x215 cm

It is made from Aloe Vera-infused micro fabric. Thanks to its special fabric, it repels moisture and keeps the cold out. The Aloe Vera used in the fabric repairs, renews, and moisturizes the skin's damaged cells.

Wooltouch Pillow and Quilt

50x70 cm
Single 155x215 cm | Double 195x215 cm

Made from 100% natural, biodegradable, and renewable wool, this duvet provides excellent insulation against both heat and cold while regulating the moisture content in the air, ensuring an uninterrupted sleep. Wool is highly durable, maintaining its shape and appearance over time.

Standard Mattress Protector
